# About Versalink

## Our History

Established in 1991, Versalink as an international office expert is a specialist in the design and furnishing of modern office and working environments. Versalink defines the office as a living space, and its concepts, products and services turn this philosophy into a reality. The Versalink Holdings Group is a globally active company with its head office and production facilities in Klang, Malaysia. Development, design, and production, along with consulting and sales, are thereby united under one Malaysian roof. As a significant market player in Malaysia, Versalink stands for innovative concepts, inspiring offices, and high-quality design. Versalink develops and produces customised solutions for all company sizes from one-person companies to SMEs and global corporations.

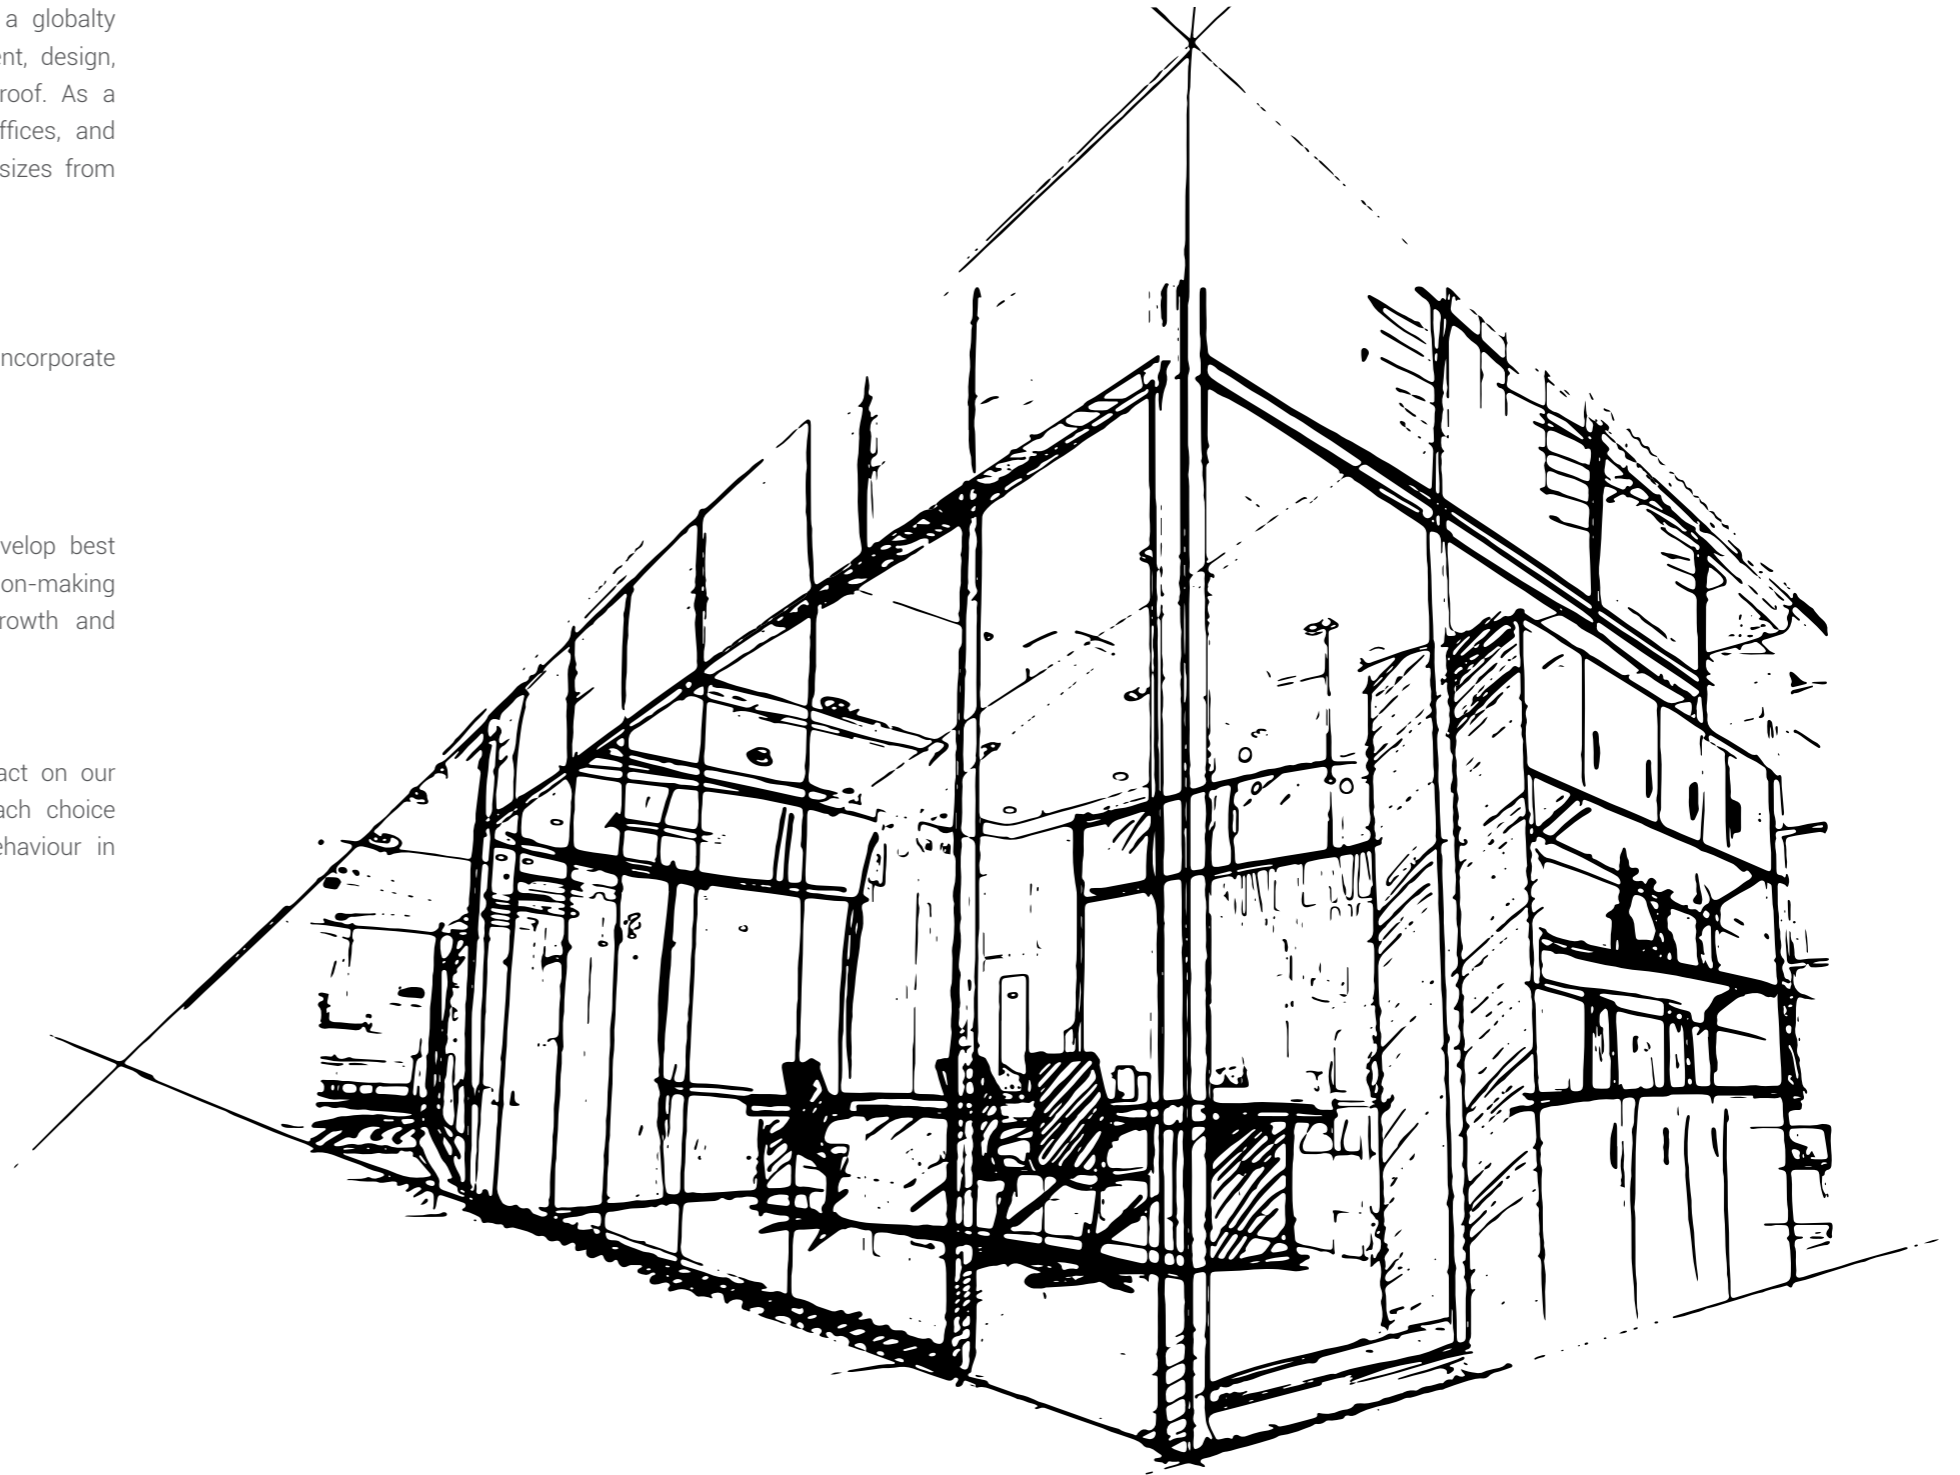

## Our Vision

Our ultimate vision is to become a conscious-centred ethical global company, where we incorporate social goals in all our business goals, so as to maximise improvements in.

## Our Mission

To create good impact in all that we do, through conscious business ethics where we develop best business practices and policies that lead us to operate based on Higher Consciousness decision-making and actions, and to experience higher levels of success, a more satisfied workforce, growth and longevity.

We practice mindful awareness and do what is best for the whole by considering the impact on our employees, customers, suppliers, shareholders, the environment, and our community for each choice made, so as to ensure a strong foundation of integrity, support, good-will and ethical behaviour in businesses.

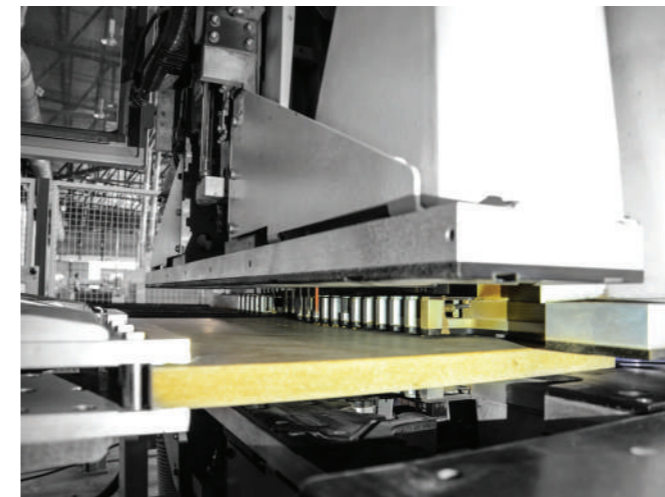

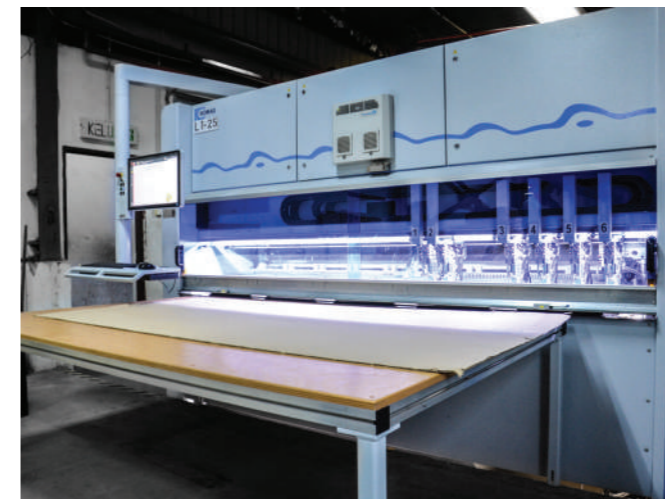

# Smart Production

Moving towards efficient manufacturing process and Industry 4.0, the 260,000 square feet manufacturing plant being upgraded with the latest technological advancement of machineries from Germany. Versalink strongly believe that with these investments, they will bring forth more benefits that help us as a manufacturer more flexible and making us react to changes in the market easier. We can increase the speed of innovation and will be very consumer centred, leading to faster design processes.

These industry 4.0 incorporated machineries like Edge Banding, Panel Saw, Storage system and Cardboard Cutting machine provide help to maximize our production capacity and minimize error in production line. These machines show improvements in both production quantity and quality.

# Sustainability

**Versalink aims to be reliable partner for sustainable, well-designed office solutions and committed to:**

We want sustainable energy to empower people, businesses and societies, providing them with better environment by reducing the potential of harming the planet which in long term benefited our future generations.

**Our sustainability commitments are:**

To purchase and process wood-based materials from sustainable forestry, reduce the CO2 footprints of our products, consistently pursuing recycling and reuse products as to minimize our environmental impact for long term ecosystems protection.

To safeguarding and strengthening labour and human rights, promoting safe working conditions, mental health and well-being and to provide equal employment opportunities to our employees. We commit to treating all people with respect, against discrimination of gender, age, sexual orientation, nationality, religious and political beliefs.

To promote a social community and safe & healthy working environment by complying with the safety and health regulations. We strive to giving back to the community by regularly supporting various services and activities within our community, such as providing donations or sponsorships to schools, orphanages, old folks homes.

**Our Certificates:**

## How we can make a difference for you

**At Versalink**, we help people stay interconnected with the surrounding factors & work practices that contribute to the quality of the work environment on a long term basis. # DYNAMO PRIVACY

## CALLING BOOTH

Enjoy a feeling of comfortable privacy conveyed by the upholstered walls, a space that blocks visual distractions and in which it is easier to concentrate.

This elegant architectonic structure for open offices that enables employees to move away from their workplace without disturbing others.

## PHONE CABIN

The challenge of having a holistic office is to create an environment that respond to the needs of personal life and foster sensory well-being to put everyone at ease. Dynamo create spaces that response to flexibility, engaging and teamwork with respect to individual activities.

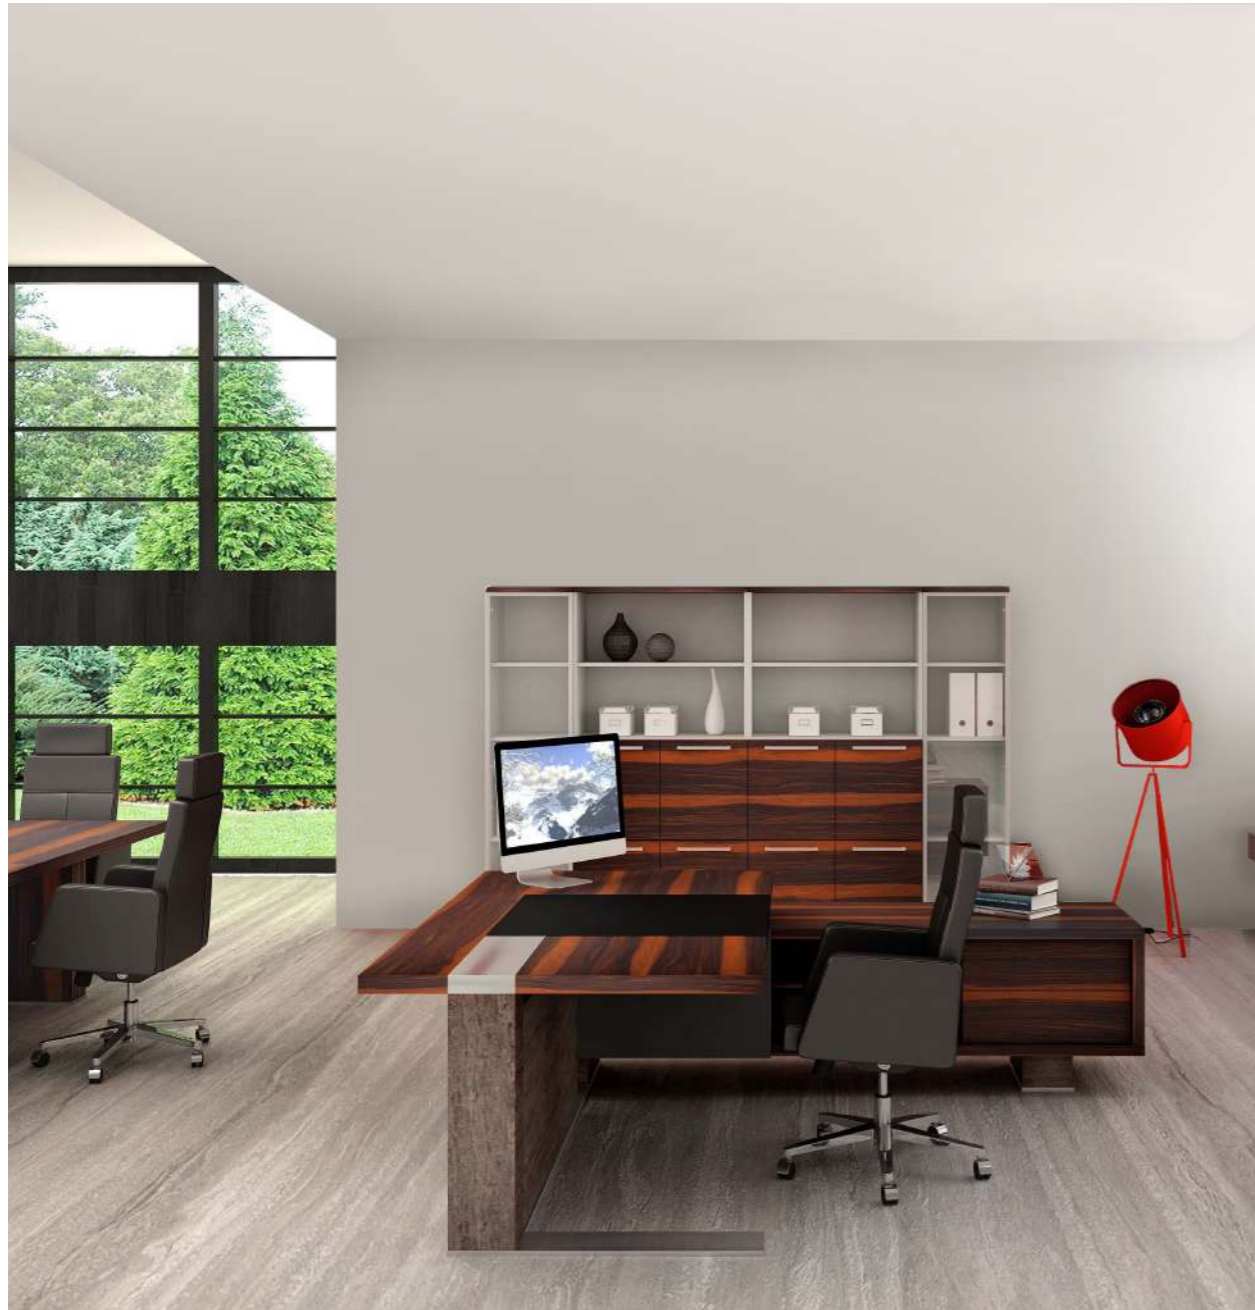

## EXECUTIVE SERIES

## Perfectly, Perfect

**Made to love, made to last**

The focus is exclusive. VEER majestically combines high-pressure laminate, leather and steel to deliver its powerful aura. The collection of Executive Desk and Meeting Table perfectly fit into the executive room.

## Structurally, Sophisticated

### Aesthetically valued

Durable high pressure laminate characterizes the structural elements, creating a clear distinction of the working surfaces. Truly aesthetic, precious and sophisticated creating a lasting value to Veer Executive Desk.

### Durable, majestic, exclusive

The lower units expressing strong and solid characteristic. It is where the modern mix of high grade particle board forming 35mm working surface and the side thickness perfectly strongholds the wholeness of Veer.

### Infinity in design, comfort in style

A good solid mix. Veer displays a contrast leg texture that perfectly blends with it's metal profile.

# SOLO

## Clean, Sleek Lines

### Making a good first impression

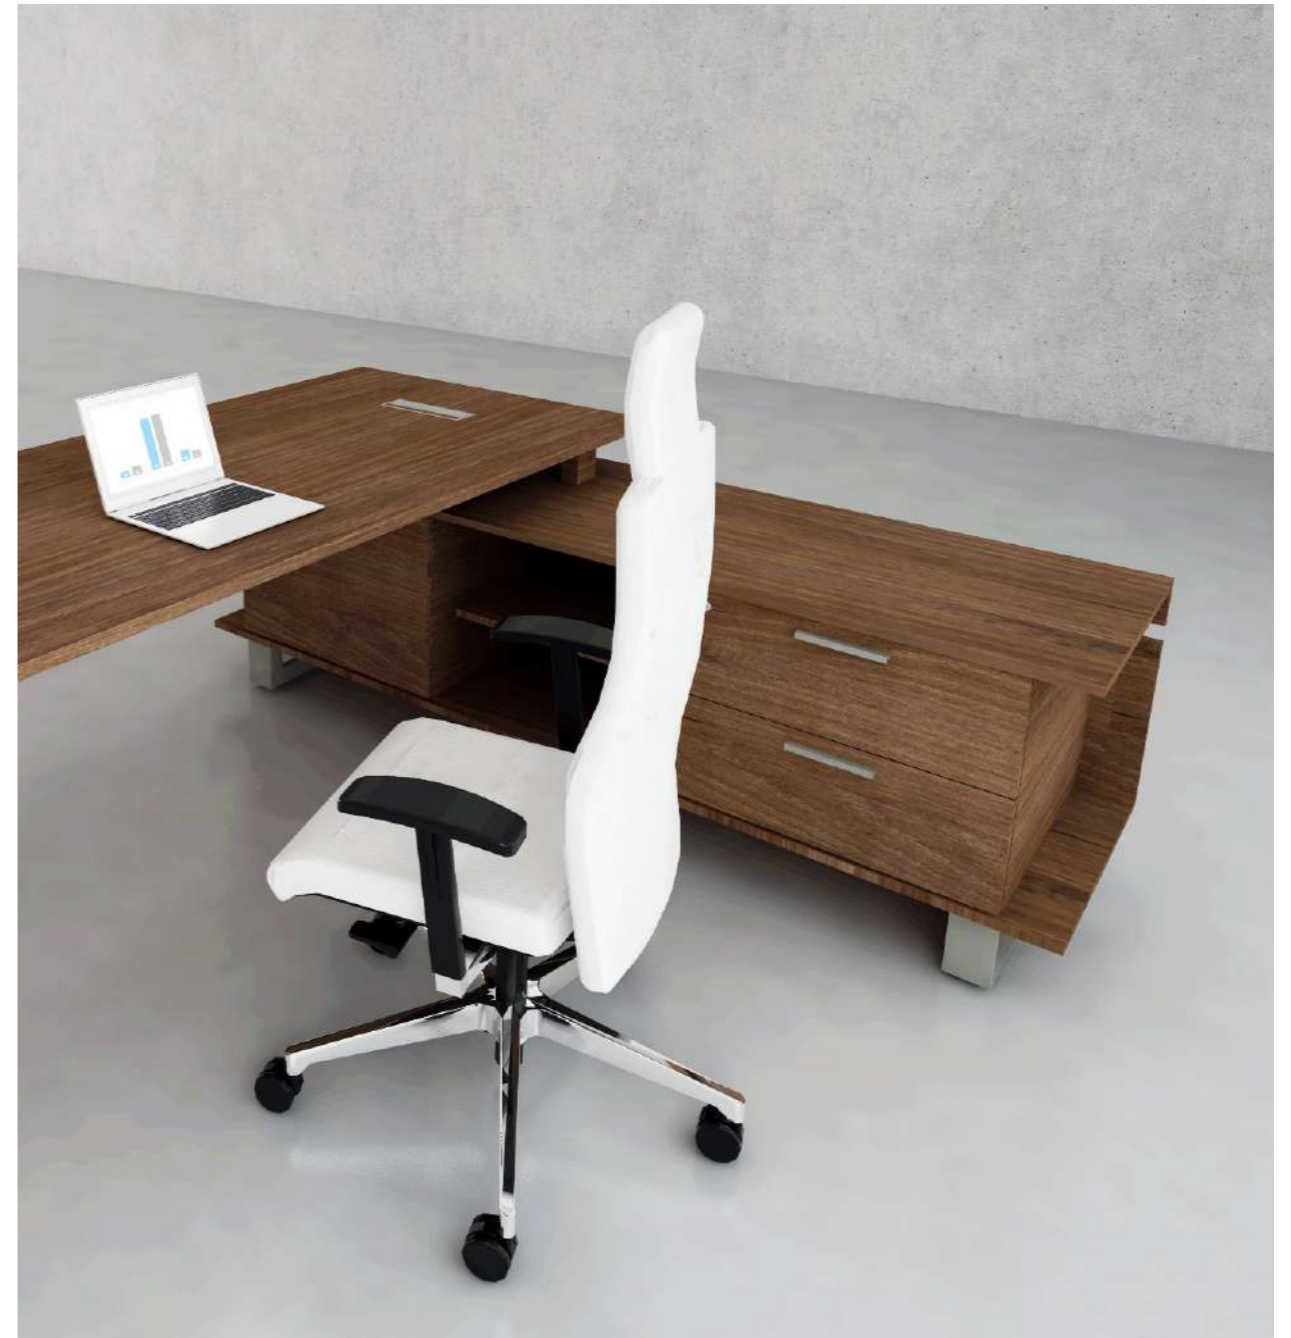

SOLO, an exquisite natural representation. Clean sleek lines and minimalist design of SOLO moves towards trendy office design and this gives a first impression to the user. The second impression is as good as the first.

## Professional Ambience

### Making of the perfect desking

The simplicity of metal leg components creates a feeling of professional look and a perfect ambience to any office environment. SOLO gives the user the futuristic feel of work spaces.

### We deliver creative solution

We have designed an exclusive series of this system featuring storages and much more elements to attach at another level, featuring great stability and aesthetic appeal by offering number of possibilities from single table to multi-user desk system alongside.

# YES

## Lavish, Confident

**Never say no when you really  
want to say YES**

YES, incorporates style and efficient use of executive desking. It integrates fine melamine finishing with contrasting arrays of colors and the carefully crafted chrome finished metal legs. It gives a feeling of extravagance but at the same time keeping it hands-on everyday use. It encourages the user feeling pleasant and confident, which is the intention why we made YES to be.

### A combination with design

The metal legs are constructed from reinforced tubes that are finished in chrome disguising wire ways in wooden channels offering innovative techniques in it's design.

### Chromatic, Support

#### Functionalism with balance

Through raising the storages with a chromatic pallet close to the base support, the fixed side return is perfected.

## Luxurious, Elegant

### Italian design, desirable

CORIUM has been designed as a complete desk concept. With a modern and elegant touch, Corium executive is clearly identifiable through its Italian engineered metal legs and the well balanced material construed perfectly into an executive room

### Individual Chic

The polygon-shaped legs, polished chrome or painted in white, characterizes the entire collection. The junction of its unique leg, elegantly curved, appears as one single piece. The geometrical design hides the complexity of its structure and that gives a feeling of cleanliness and lightness to the Italian designed structure.

### Standards we believe in

Designed to address current work spaces giving them warmth and distinction. The round shape edge of the table was designed for creating a space for discussion.

## Build Your Character

**Innovative, creative, empowering**

PLATZ+ is understatement, designed to play down its role in the office environment giving way to people and their daily lives as they build the character of the office with their daily tools of work, creating character by themselves rather than being imposed.

### **Ideal for working essential, detailed**

PLATZ+ is both light and strong. The structural detailing of the frame and legs create a design language. Making it an outstanding feature and it's character of the system. Platz+ legs are available in two colors, black and white.

### **Flexibility, dedicated to the need**

Single and stand-alone furniture elements makes PLATZ+ flexible and easy to use for dedicated needs.

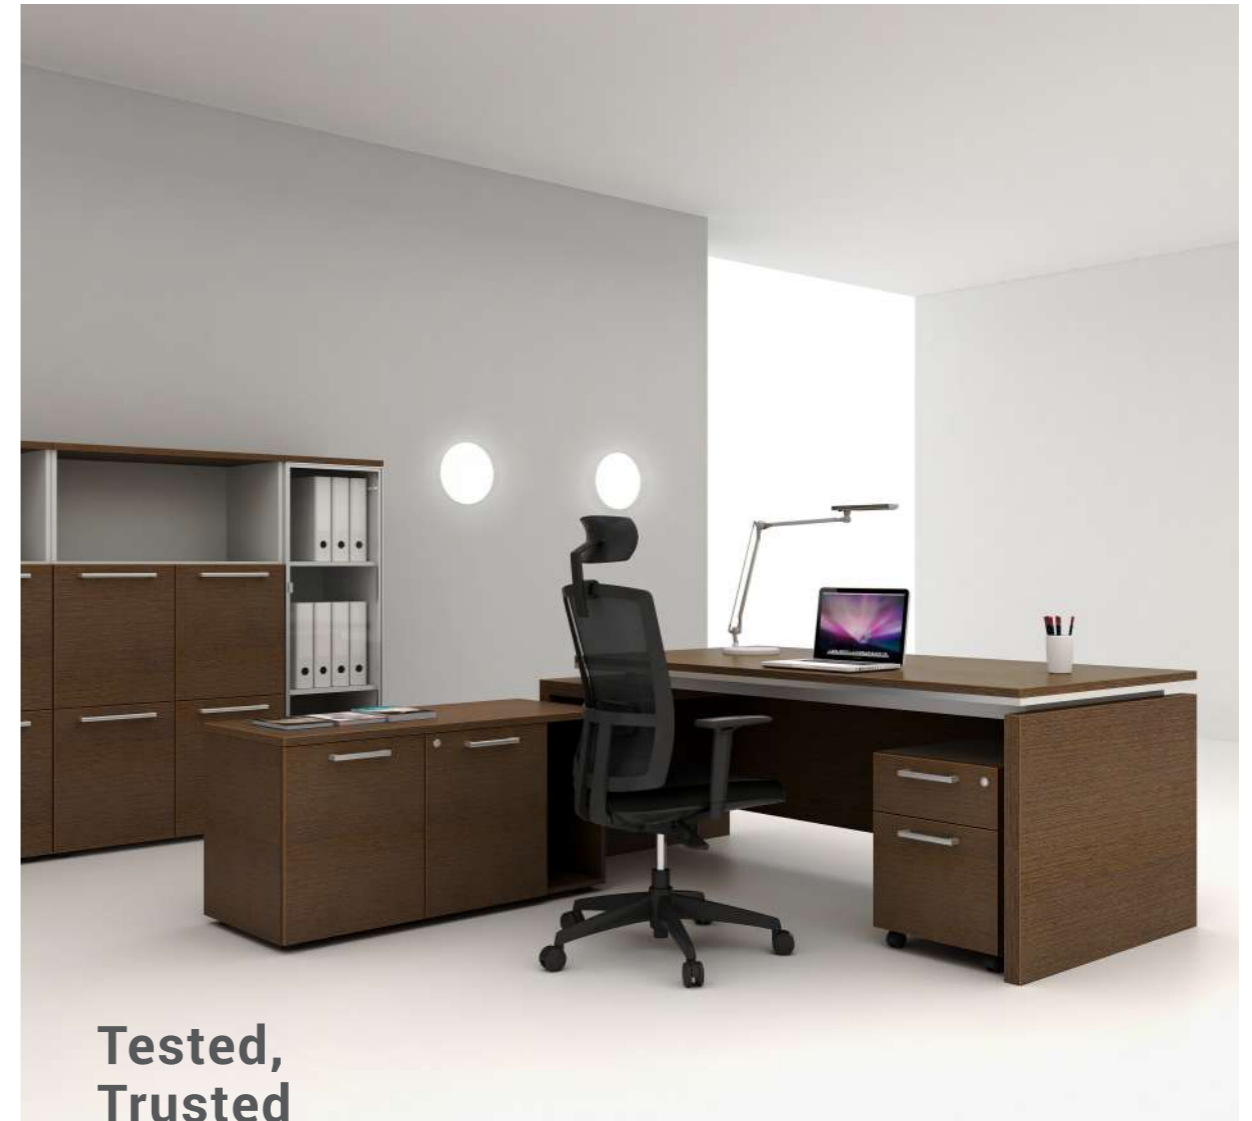

## Contemporary, Diversity

### Amazingly viewed in every angle

MAX, a modern and contemporary design. It condenses a diversity of simple and essential style of function. Its fine melamine finishes and carefully crafted aluminium components create a feeling of luxury without the price tag. It makes those who work in it feel great, which is why MAX was designed with solution in mind.

## Tested, Trusted

### Inspections assess the quality

The worktop is constructed with melamine face boards that tested against heat, abrasion, steam, stain and chemical resistance. And the side return can be configured and fixed for both left and right side of the table

### Organized your wires, well done!

MAX elegance looks drives from its finished silver color PVC edging. The integrated aluminium cable box used to place the wires make it looks organized in the transverse channels under desk.

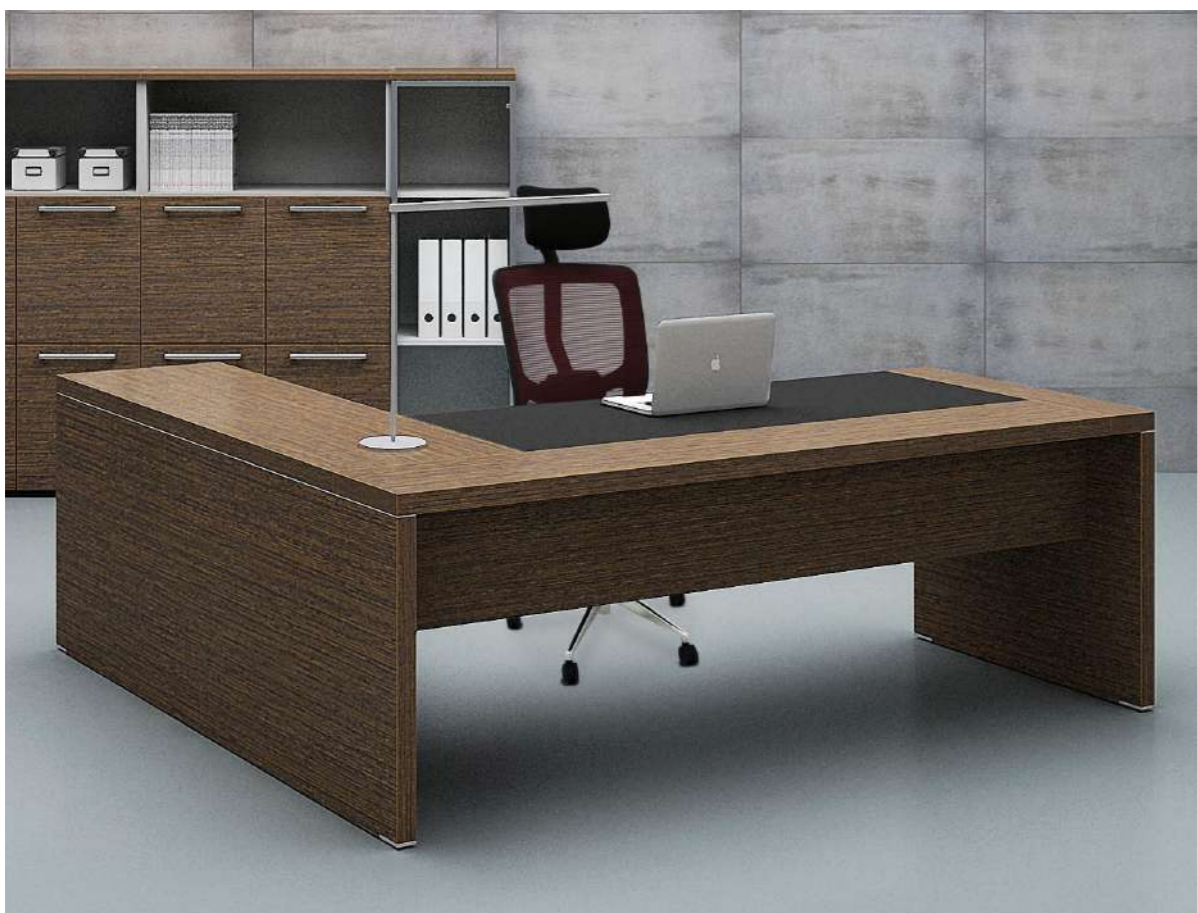

# NOBLE

## Every Details Is Our Concern

**Truly designed for executive offices**

NOBLE is an interpretation of timeless simplicity. This design works for virtually many demographics anywhere.

**Exclusively for executive**

Easily adaptable with wide options of storages, NOBLE is a well-made executive series that shows sophistication delicately.

**Keep calm and stay luxurious**

For a touch of luxury and elegance, this executive desk has a synthetic leather insert panel.

## Origin, Extraordinary

**Create values for your space**

VALENTI, an extraordinary origin. Valenti idea derives from our popular product 'MONTINI'. This elegant desk was conceived to reflect the status of success. With Valenti, you will have the flexibility that you always wanted.

### **The impact is far-reaching**

Valenti's luxurious look formed by 2 layers of contrasting table tops which make it unique and strong. The worktop uses trendy MFC with a leather insert to create a high visual impact executive desk

### **Well Organized, Well Prepared**

It provides security to confidential documents with both mobile and fixed pedestals. They makes a personal working areas more organized. Finished in same wood grain of the of the top and sides, makes it a complete luxurious look to Valenti collection. MFC

# LEGATO

## Minimalistic Executive

**Totally on point!**

Meets panel legs for a smooth, clean look and fitted with a side return that comes with left or right side storage compartments. LEGATO, a clean minimalistic executive product with a board of modesty as an option.

**Luxury, charm or class, you decide**

The well-balanced collection that encompasses styles and use of materials, the place at the heart of the company where development tactics and strategies are being created.

## Long-lasting, Grande

### Sustainability is the real deal

LEVITAR, an impressive look for a regular desk with a thicker particle board used for a new, long-lasting office layout.

### **Restrained sense of authority**

An open plan office system that combines amazing technical features of stylish modular open bookcases with elegant sliding door cabinets.

### **Ergonomics design and materials**

Levitar's L Shaped Executive desk with fixed side return attached with sliding door storages that looks solid and steady without feeling monotonous with its woodworking grain directions.

## Nod To Nature

### Nature effects our well-being

Minimal in nature, YUVA's collection of collaborative wood tables add warmth to the workplace

### Great things come from being inspired

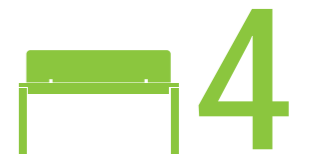

Answer to every space, YUVA offers a range of applications that supports the flexibility to adapt and evolve as the needs of the organization shifts

### Sleek Solid Wood

#### Symmetrical with balance

The thin and sleek solid wood legs creating classic and complementary statement in any environment.

SYSTEM SERIES

## The Realization

### A family of products

Flex reinterprets the new element for the modern office. The flexibility to adapt and evolve as the needs of both individual and group evolves as the need of the organization, people and culture shifts.

## Traditional But In A Modern Mood

### Dynamic frames to change

Flex creates micro-architectures for individual operative spaces.

### Accessories that are ready to use

Plenty of possibilities for the daily approach of tasks and movements taking place at work

# FRONTE II

## European Design

**Own the space, create yours**

Fonte II came about from bringing balance and functionality together. A range of work tables with proportionate and straight lines that evolves with each project and each team. Elegant and contemporary, Fonte II responds to the changing needs of work spaces. The perfect solution for every space.

## Configure Endlessly

### Every possibility is possible

Another modular system which creates and configures spaces with different heights and enables endless design possibilities to adapt workspaces to every need.

### Experience our best materials

The mix materials from full glass to fabrics are possible for these panel tiles. The hollow spaces in the panels accommodates electrical cables.

## Ergonomics Starts By Sitting And Standing Your Way

### Freedom of choice

Whether you are setting up an individual workplace or workspace for a team, these sit and stand workstations establish a freedom of choice for the user and they provide excellent work desk ergonomics where safeguarding your well-being is what matters more.

## Economical, Versatile

### Create your own rainbow

Invariably imbue with unlimited choices of colors. Our screen panels and HPL laminates offers a wide range of color selections to choose from.

### Nothing interrupts the flow of thought

Being organized is half the battle won; All cables run in an orderly manner.

### Performance in Hand

Height settings allows for quick adjustment to the desired desk height.

## Agile, Team

### Individual desk for the performers

Covaa workstation presents the agility to move between sitting and standing height. The flexibility of this sit and stand desk allows any individual in the team to choose how he/she wants to continue their work in their preferred position.

### Keeping things in order

These tall pedestals can be used to screen workstations and its a storage space to keep things in order.

### Ways Too Good Collaboration

### The twin working models

With its simple, elegant design, this model fits perfectly into modern working environments. Robust table legs can also be hidden providing stability and, at the same time, freedom of movement.

## Meeting, Gathering

Meet people, connect

Work meetings are more productive when they take place in comfortable and environments tailored to them. The different heights of the Lex tables allow them to be used in individual times of concentration as well as in situations of productive conversation with the rest of the team.ry need.

## Biophilic Office

### Close to Nature

Positive effects of nature within the urban environment are ways to boost productivity and create an environment that reduces stress levels.

## Underlines The Aesthetic

### Clean design, clean mind

Restrained and elegant lines make it the ideal choice for sprucing up any space: from offices or for welcoming visitors to meeting rooms. The elegant and functional furniture is the best solution to focus attention on what is really important

## Communicate Sharing

### High desk concept

Spontaneous meeting in a workplace or a public space, allow you to full contact between up to eight people around it, while it's also perfect for more private and intimate gatherings among a few individuals.

## MEETING & CONFERENCE

## Adaptable, Flexible

### Just remember where you started

Our Salsa tables are functional for training and studying. They fit the bill wherever flexible work surfaces are needed. For collaboration space needs, tables can be fixed, or equipped with castors, meaning classroom or training center can be reconfigured or appear and disappear effortlessly.

### **Connect and Disconnect**

Salsa offers the possibilities to connect and disconnect in a quick and simple way using a simple connector kit that secures the positions. No tools are required to remove the modesty panel or engage the ganging mechanisms. All you need to do is to release the lever and the work top flips back to its nesting position.

### **To assemble, disassemble and store**

This flip top version enables assembling, disassembling and storing of desk to optimize the space. The Salsa metal legs are epoxy white powder coated with castor rollers fixed so that it can seamlessly integrate to create a complete environment.

## Minimalism, Aesthetical

### We love convenient things

The essence of minimalism, art of being able to conveniently and aesthetically live from a simple manager's desk to a cluster of workbench. Merely using extended beams and additional legs.

### **The design is still contemporary**

The Corium steel legs and beams are constructed out of steel tubes and surfaces finished in chrome and epoxy coated that are tested against corrosion. The base of the legs are fixed with height adjustable gliders for adjustments even on the most uneven floor conditions.

### **More design solutions**

The essential functionality of each piece, provides practical easy installation to configure and suit ever-changing conditions in the workplace.

## Spaces, Flexible

### Flexibility is the key to stability

The simplicity of the LEX metal leg components creates a clean look in the office. The design comes with a flexible structure to allow reconfiguration based on space availability and the organization's needs. It can easily adapt from single executive desk to a multi-user organization and even to be used in a meeting room.

### Schematic products, maximize it's utilization

Working, discussing or presenting, Lex meeting and conference brings people together and the table plays it's role in these environments.

## Unique Pieces

### Size, Style, Architecture

Hardly any room resembles from another. The design possibilities of customization can be tailored exactly to your needs. Different table top shapes and finishings to meet a variety of situations in any modern office environments.

YES

## Multi Materials

### For the glass lovers

The final result is a sophisticated and contemporary office solution with its black painted glass top. With multiple pairing options between the work surfaces, the metal structures and multi-materials used in this solution provides that exclusive overall look.

### **Hide well with smart hidden beam**

The multi materials desk has a unique "Y" shape chrome metal structure legs that can epitomizes hidden wire management from the ground stages.

### **Neat, tidy and organized**

Large scale conference table brings artisan focus in the boardrooms. Passages of hidden storages below can also be covered with matching finishing that keeps the desk looking tidy and organized.

## Symmetrical, Elements

### Match and balance

Platz meeting tables can be introduced to almost any environment. With its symmetrical styling and warm wooden elements, it will be welcomed everywhere.

### **Spacious enough for your big ideas**

It offers a wide and spacious worktop, encouraging dialogue, conversation and communication. This table meets new working methods and co-working methods by encouraging discussion and creativity by allowing several people to work together on the same top.

### **Modest focal point**

Platz meeting tables stand out with their striking design. They fully meet the requirements of a meeting room that is welcoming the guest in a refinement, warmth and comforting presence with its innovating style.

## Classy, Lively

### Intelligence is to adapt and to change

The simplicity and classiness of the metal leg components creates a futuristic look in the office. The design comes with a flexible structure, which allows reconfiguration based on space availability and the organization's needs. It can easily adapt from a single table unit to a multi-user organization.

### Face to face situations are real

Joined in a straight line especially feasible in a combination of tables which can also be used independently.

### Levelling, Adjustable

#### Great Diversity

Transform rooms into flexible, demand-oriented workplaces that switches between communication and concentration.

## Apply, Adapt, Aesthetic

### Improvise, adapt, engage

A place to meet and contribute to an organization's bottom line, Yuva offers a range of applications, adaptability, aesthetics for employees to choose and control during their engagement.

### **Oak and teak, hooked well**

The wooden legs comes 3 shades of oak and teak colours selection and they are constructed with a contrasting look with metal mitre joint (Epoxy Steel grey)

### **Contrast with materials, one with design**

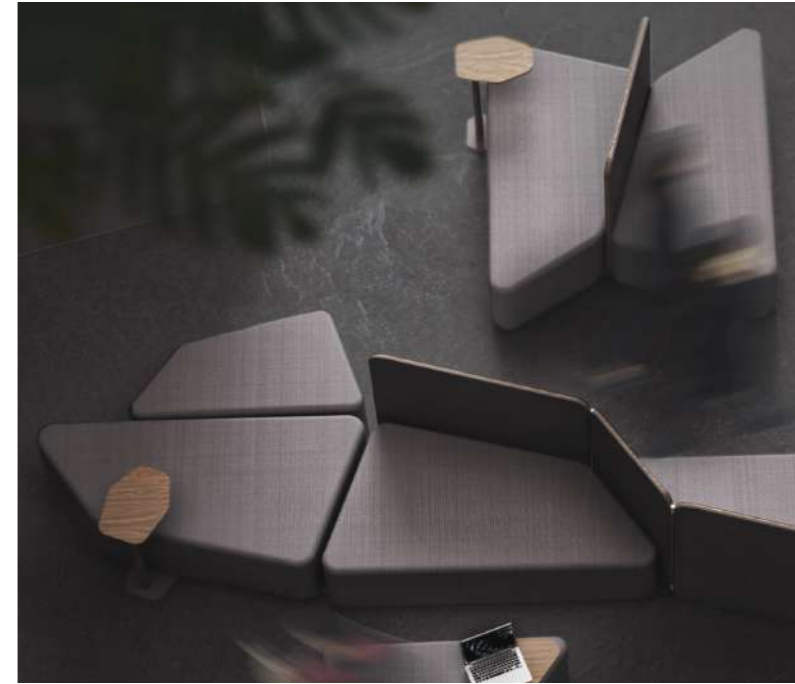

Combines the contrast of materials where the wooden legs use solid wood with veneer finishing and that matches the worktops. The versatility of these dimensions allows you to play around with the configurations. Modesty panels are also available.

# DYNAMO COLLABORATION

## DYNAMO RELAX

A relaxed working atmosphere can encourage productive intellectual work; it's a place for ideas.

## DYNAMO MODULAR SOFA

## DYNAMO MEDIA SPACE

Its offer an excellent solution for those who need space within the workplace for quiet meetings or work requiring concentration.

## Refined, Balance

**Everyday, 83 million people  
attend 11.5 million meetings**

The conference room is one of the visiting cards of the company. The prestigious lines in this ORO table impresses at first glance. The power, network and laptop cables disappear into the cable tray. The superb materials and solid legs speak a very clear language of confidence throughout the meeting's agenda.

## All-round, Wide range

**Alone we do little,  
together we do more**

Accommodates a wide range of multipurpose tables that can be used as conference, meeting room or boardroom tables, Levitar will show it all.

6

## FILING & STORAGE

# NORMA

## Valuable, Variety

### Everything seems right

NORMA, not only can adapt to your budget and space, it also complement the way you want your storages to work. Norma offers an excellent storage solutions for easy document archiving. A wide range of selection from Norma collection available for you to choose base on your needs.

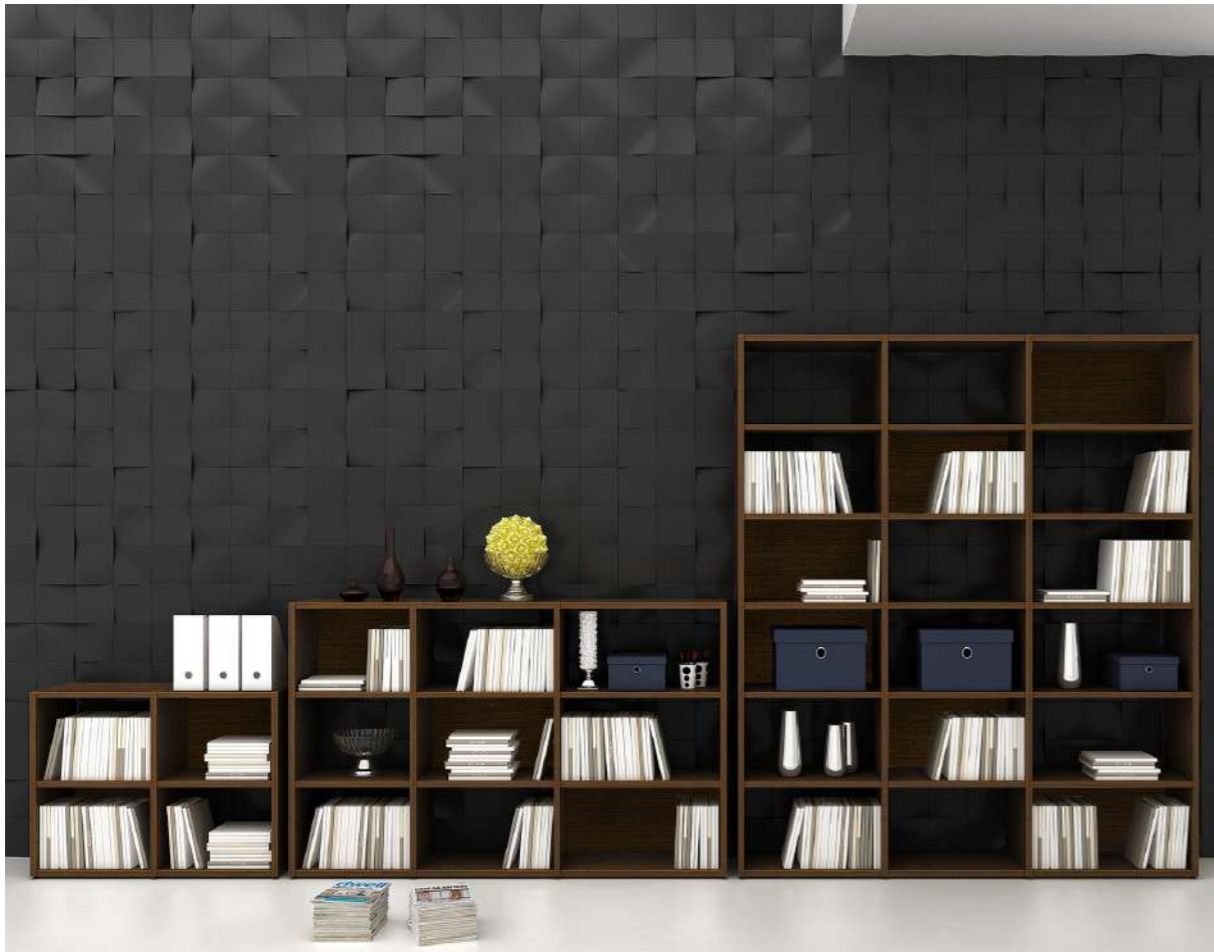

# CUBO

## Variable, Minimal

**Never be afraid to change**

Designed with high flexibility in mind, CUBO bookshelf is a chameleon in adapting in many needs for space and storages at home or in the office.

### More compartments more spaces

Designed with high flexibility in mind, CUBO bookshelf is a chameleon in adapting in many needs for space and storages at home or in the office.

### Coordinate well, means alot

CUBO allows you to organize documents efficiently and help locate them quickly. CUBO specifically helps to create a homely and relaxed atmosphere with its design.

## By John Bennett

### Good furniture, good ambience

Platz+ storage, an exceptional design that integrate both storages and workstations under Platz+ which designed by John Bennett.

# PREMIO

## Compact, Class

**No regret, only satisfaction**

PREMIO still remain as an important storage place in compact offices, group and team offices. A must have furniture near the workplace or as a mobile for organization of personal storages. It is so versatile and comes in different design and spaces.

### Do it your way

Premio can composite into most of our systems series and projects the look that you want in your office.

## Conceptual, modern

**Modular with interactive. Its fun!**

The Muro concept is a fun element that we played around. Muro breaks away from the old traditional boxy storage into an interactive, modular and open plan viewing across the workplace

### **Integrate with optimal arrangement**

The heart of MURO consists of a skillful combination of totally modular storage structures. These units can be arranged in vertical layers which double up as space divider, and are designed for optimal integration with the desking system.

## **Usability, Enjoyment**

### **Sizes? Its fit all, absorbs all**

MURO can adapt to any requirements, from small environments to large open spaces – integrating into an office with the convenience of a complete cabinet system with modern and minimalist aesthetic.

# LOCKER

## Revolve, Collaborative, Co-working

### Your belongings, in your box

As workspaces revolve to task orientated rather than fixed work spaces, Locker was designed with flexibility in mind for people to move through different parts of the office, using whichever suits the project at hand.

## Tone Up, Combine

### Colour it any way you want

It works as great tool to express company's culture with its colorful finishes. It could be the place where you add brand colors to your workspace. Whether its expressive or reserved, our lockers offers a wide ranges of color palate for your choices of combination.

## Ideal, Public, Private

### Locked, everything is safe

Having convenient and safe place to keep your personal items gives everyone peace of mind. Locker consist two compartments with the pigeon hole of each doors. Easy access for opening the door and also for mail/document deposit.

## Unlock your potential

The individual doors are fitted with locks. There are different types of locks ranging from basic cylinders, combinations and electronic controls, we have a locker lock for the job.

# DYNAMO STORAGE

## **DYNAMO LOCKER & HANGER**

As agile working becomes more popular, the storage needs of staff have evolved from a desk pedestal to lockable lockers used to store laptops, personal belonging and even gym gear.
